Bring Your Own Device

Requirements

All BW students are required to have a laptop or tablet computer. There needs to be more than iPads and Chromebooks to meet minimum specs. They can access BW's Virtual Desktop, but will not connect to all BW software. NOTE: Some academic disciplines have a preference for devices. The School of Business prefers Windows computers, while Art and the Conservatory prefer Macs. Some majors, such as Physics or Computer Science, may require students to have computers with high-end graphics to run simulations. The School of Education also requires students to have an iPad and a laptop. Contact the department of your intended major with any questions. For more information, go to: help.bw.edu and search "BYOD."
